Madrid, 19th September 2022. Viamed Salud and Healthcare Activos have signed an agreement aimed to reinforce their shared commitment to sustainability. This agreement arises from the relationship between the two companies regarding Viamed Nuestra Señora de Valvanera Hospital in Logroño (La Rioja), managed by Viamed and owned by Healthcare Activos.

The agreement establishes a framework between the two companies for the definition, promotion and implementation of initiatives to support the Sustainable Development Goals (SDGs) and the 2030 Agenda.

As a result of the agreement, Viamed Salud and Healthcare Activos are committed to work on exchanging of information and best practices, together with the adoption of energy efficiency measures or the calculation of the carbon footprint.

Viamed Salud and Healthcare Activos share the common objective of guaranteeing long-term quality care, as well as their commitment to sustainability as a social component.

Paulo Gonçalves, CEO of Viamed Salud, states that "Sustainability is a fundamental part of Viamed Salud and we materialise it through our Eviamed30 Plan, with which we are working to achieve zero emissions. The agreement with Healthcare Activos is a further step in continuing our commitment to sustainability by adapting it to future needs."

“One of our investment fundamentals is to partner with top-tier operators like Viamed, with whom we share values, strategies, and long-term vision. The signing of this Agreement is the recognition of both companies’ commitment to sustainability and the creation of long-term social value” explains Albert Fernández, Healthcare Activos’ CEO.

About Viamed Salud

[Viamed Salud](#) is a healthcare group that works to provide added value in terms of health and patient well-being to the population in the areas where their hospitals are located. The group has a large network of centres across the country, including several hospitals in Andalusia, Aragon, Catalonia, La Rioja, Murcia and Madrid, several outpatient clinics and a rehab center.

The group is characterised by the presence of specialists who can treat different conditions and diseases, prioritising close personal patient care, with modern hospital facilities and the latest medical-surgical technology, always advocating respect and environmental sustainability.

About Healthcare Activos

Healthcare Activos is the leading Iberian platform for real estate assets in the healthcare sector (including hospitals, clinics, and nursing homes). Since its creation in 2016, the firm has acquired more than 50 assets with an asset value of more than €650 million and more than 350,000 sqm under management.

With Jorge Guarner as founder and Chairman and Albert Fernández as CEO, the platform is based on long-term business fundamentals: selected high-quality assets, leased to leading European operators with long-term triple net leases and fixed rents indexed to inflation. Healthcare Activos offers a full range of investment options, from the development of new buildings to the acquisition of operating and stabilised properties.
